PREFACE

The requirements for the preparation of a report on receipts and outlays of the Government originated with Article I, Section 9 of the Constitution of the United States, which provides in part that "No Money shall be drawn from the Treasury, but in Consequence of Appropriations made by law; **and a regular Statement and Account of The Receipts and Expenditures of all public Money shall be published from time to time**." (Underscore provided). This requirement was followed by a standing order of the House of Representatives, dated December 31, 1791, which required an annual report on receipts and outlays of the Government. This requirement was superseded by the following:

- 31 U.S.C. 331(c) provides, "On the first day of each regular session of Congress, the Secretary shall submit to Congress a report for the prior fiscal year on the total amount of public receipts and public expenditures listing receipts, when practicable, by ports, districts, and States and the expenditures by each appropriation."
- 31 U.S.C. 3513(a) provides, "The Secretary of the Treasury shall prepare reports that will inform the President, the Congress, and the public on the financial operations of the United States Government."

This statement is recognized as the official publication of the details of receipts and outlays with which all other reports containing similar data must be in agreement. It is used by the Congressional Budget Office in serving the needs of Congress; the Office of Management and Budget in reviewing the President's Budget programs; the General Accounting Office in performing its audit activities; the various departments and agencies of the Government in reconciling their accounts; and the general public in continually reviewing the operations of their Government. Other reports prepared by the Department of the Treasury that contain related information include: **The Daily Treasury Statement; Monthly Treasury Statement of Receipts and Outlays of the United States Government;** and **the Treasury Bulletin**.

DESCRIPTION OF ACCOUNTS RELATING TO CASH OPERATIONS

The classes of accounts maintained in connection with the cash operations of the Federal Government, exclusive of public debt operations, include: (1) The accounts of fiscal officers or agents, collectively, who receive money for deposit in the U.S. Treasury or for other authorized disposition or who make expenditures by drawing checks on the Treasury of the United States or by effecting payments in some other manner; (2) the accounts of administrative agencies which classify receipt and outlay transactions according to the individual receipt, appropriation, or fund account; and (3) the accounts of the Treasury of the United States which office is responsible for the receipt and custody of money deposited by fiscal officers or agents, for the payment of checks drawn on the Treasury, and the payment of public debt securities redeemed. A set of central accounts is maintained in the Department of the Treasury for the purpose of consolidating financial data reported periodically from these three sources in order to present the results of cash operations in central financial reports, for the Government as a whole, and as a means of internal control.

The central accounts relating to cash operations disclose monthly and fiscal year information on: (1) the Government's receipts by principal sources, and its outlays according to the different appropriations and other funds involved; and (2) the cash transactions, classified by types, together with certain directly related assets and liabilities which underlie such receipts and outlays. Accounting for receipts is on the basis of collections; accounting for outlays is on the basis of checks issued and cash payments made (cash basis). However, the interest on the public debt, public issues, is on the accrual basis while the interest on special issues is on the cash basis. The structure of the accounts provides for a reconciliation, on a firm accounting basis, between the published reports of receipts and outlays for the Government as a whole and changes in the Treasury cash balance by means of such factors as checks outstanding, deposits in transit, and cash held outside the Treasury. Within the central accounts, receipt and outlay accounts are classified as described in the following paragraphs.

Budget Receipt and Outlay Accounts

General fund receipt accounts – General fund receipt accounts are credited with all receipts which are not earmarked by law for a specific purpose. General fund receipts consist principally of internal revenue collections, which include income taxes, excise taxes, estate, gift, and employment taxes. The remainder consist of customs duties and a large number of miscellaneous receipts, including fees for permits and licenses, fines, penalties, and forfeitures; interest and dividends; rentals; royalties; and sale of Government property.

Special fund receipt accounts – Special fund receipt accounts are credited with receipts from specific sources which are earmarked by law for a specific purpose but which are not generated from a cycle of operations. The Congress may appropriate these receipts on an annual basis or for an indefinite period of time. Examples of special fund receipts are those arising from rents and royalties under the Mineral Leasing Act, the revenue from visitors to Yellowstone National Park, the proceeds of the sale of certain timber and reserve lands, and other receipts authorized to be credited to the reclamation fund.

General fund expenditure accounts – General fund expenditure accounts are established to record amounts appropriated by the Congress to be expended for the general support of the Government. Such accounts are classified according to the limitations that are established by the Congress with respect to the period of availability for obligation of the appropriation, as 1-year, multiple-year, or "no-year" (without a time limit), and with respect to the agency authorized to enter into obligations and approve outlays.

Special fund expenditure accounts – Special fund expenditure accounts are established to record appropriated amounts of special fund receipts to be expended for special programs in accordance with specific provisions of law. These accounts are generally available without time limit, but may also be subject to time limitations as in the case of general fund accounts.

Revolving fund accounts – These are funds authorized by specific provisions of law to finance a continuing cycle of operations in which outlays generate receipts, and the receipts are available for outlay without further action by Congress. They are classified as (a) public enterprise funds where receipts come primarily from sources outside the Government and (b) intragovernmental funds where receipts come primarily from other appropriations or funds. These accounts are usually designated as "no-year" accounts, i.e., they are without limitation as to period of availability for outlay. Examples of public enterprise revolving funds are the Tennessee Valley Authority and the Commodity Credit Corporation. Examples of intragovernmental revolving funds are the General Supply Fund administered by the General Services Administration and the Government Printing Office Revolving Fund.

Consolidated working fund accounts – These are accounts established to receive (and subsequently disburse) advance payments from the agencies or bureaus pursuant to Section 601 of the Economy Act (31 U.S.C. 1535) or other provisions of law. Consolidated working funds may be credited with advances from more than one appropriation for the procurement of goods or services to be furnished by the performing agency with the use of its own facilities within the same fiscal year. Outlays recorded in these accounts are stated net of advances credited and are classified under the agencies administering the Accounts. The accounts are subject to the fiscal year limitations of the appropriations or funds from which advanced.

Management fund accounts – These are working fund accounts authorized by law to facilitate accounting for and administration of intragovernmental activities (other than a continuing cycle of operations) which are financed by two or more appropriations. This classification is also often applied to the consolidated working funds for interagency activities described above.

Trust fund accounts – These are accounts maintained to record the receipt and outlay of moneys held in trust by the Government for use in carrying out specific purposes or programs in accordance with the terms of a trust agreement or statute. The receipts of many trust funds, especially the major ones, not needed for current payments, are invested in public debt and Government Agency securities. Generally, trust fund accounts consist of separate receipt and outlay accounts, but when the trust corpus is established to perform a business-type operation, the fund entity is called a "trust revolving fund" and a combined receipt and outlay account is used. Some of the major trust fund accounts are the Federal old-age and survivors insurance trust fund, Unemployment trust fund, Civil service retirement and disability trust fund, the National service life insurance trust fund, and the Highway trust fund.

Transfer appropriation accounts – These accounts are established to receive (and subsequently disburse) allocations which are treated as non-expenditure transactions at the time the allocation is made including certain transfers under Section 601 of the Economy Act (31 U.S.C. 1535), and similar provisions of law.

EXPLANATION OF TRANSACTIONS AND BASES OF FIGURES

As indicated in the "Table of Contents," the **United States Government Annual Report Appendix** consists of: Part One – Fiscal Year summary statement; Part Two – Details of receipts; and Part Three – Details of appropriations, outlays, and balances.

Part One: Fiscal Year Summary

Part One consists of a summary statement representing the Federal Government's General Ledger Account Balances.

Part Two: Details of Receipts

Part Two of this report contains the detail of internal revenue, customs, and miscellaneous receipts. Internal revenue and customs receipts are included in this report on the basis of reports of collections, which means they are reported as of the time that the cash received is placed under accounting control. Other receipts of the Government are reported on a collections received basis. Revolving fund and management fund receipts, reimbursements, and refunds of moneys previously expended are not included in the receipt tables but are deducted from gross outlays.

Part Three: Details of Appropriations, Outlays, and Balances

Part Three of this report contains the detailed tabulations of outlay accounts, by organizational unit, showing the various transactions that relate to such accounts which affect the budget surplus or deficit of the Government. The accounts are arranged according to general, special, revolving, management and trust funds; showing the titles, period of availability, and account symbols. Following are explanations of the column headings in the tabulations.

1. **Balances beginning of fiscal year** – The amounts shown in the first money column represent ending balances as of the close of the preceding fiscal year. An analysis of the total of these balances, expressed in terms of Fund Resources and Fund Equities, is presented on the basis of reports of the administrative agencies, submitted on Treasury Form No. TFS 2108, Year-End Closing Statement, in accordance with the Treasury Fiscal Requirements Manual.

Fund Resources include:

a. Undisbursed balances (by fiscal year account).

b. Investments in Federal securities – These amounts represent investment holdings (at par value) of Government accounts in public debt and agency securities.

c. Unfunded contract authority – These amounts represent unused authority.

d. Borrowing authority – Borrowing authority may be classified as either "definite" or "indefinite." Definite authority to borrow is stated by law as a specific aggregate sum that cumulative borrowings cannot exceed. Indefinite borrowing authority is categorized as either (1) unlimited borrowing authority–whereby the law allows the agency to borrow as needed or (2) authority set by legislative ceiling – whereby the law allows the agency to borrow as needed but sets a specific dollar limit on the amount outstanding at any one time. For accounts with definite borrowing authority, these amounts represent unused authority. For accounts with indefinite borrowing authority, these amounts represent those unpaid obligations covered by borrowing authority at the beginning of the fiscal year.

e. Accounts receivable – These amounts represent receivables which, when collected, will be credited directly to the appropriation or fund, and are reported as deductions to unpaid obligations. Such amounts consist of reimbursements earned and refunds receivable, i.e., amounts earned (both billed and unbilled) for accomplished delivery or performance as of September 30, overpayment refund receivables, travel advances and other advances which did not liquidate specific obligations, e.g., advances to General Services Administration Supply Fund are included.

f. Unfilled customer orders – These amounts consist of undelivered customer orders to the extent that they represent valid obligations recorded by the ordering agency for those appropriations using an authority to obligate anticipated reimbursements. The amount shown for an annual appropriation covers only those orders for which valid obligations were incurred under such annual account or orders for common-use items to be delivered from stock in accordance with 32 Comp. Gen. 436.

Fund Equities include:

a. Unobligated balance – Amounts reported in this column normally represent unobligated balances of no-year and multiple-year accounts for which authority to obligate has not expired.

b. Accounts payable – These amounts represent liabilities for goods and services received as of September 30, representing valid obligations supported by documentary evidence.

c. Undelivered orders – These amounts represent orders for goods and services remaining undelivered as of September 30, representing valid obligations supported by documentary evidence, for which the liability has not yet accrued.

2. **Appropriations and other obligational authority**

a. Appropriations—Article I, Section 9, of the Constitution of the United States, provides in part that "No Money shall be drawn from the Treasury, but in Consequence of Appropriations made by Law...." The appropriations included in this report are the amounts which Congress authorized to be established for the fiscal year. These amounts do not represent cash actually set aside in the Treasury for the purposes specified in the appropriation acts; they represent limitations of amounts which agencies may obligate during the time period specified in the respective appropriation acts. In some instances, the Congress reappropriates part or all of the unobligated balances of prior-year appropriations which would otherwise expire. In other instances, the Congress authorizes the transfer of obligational authority covering current appropriations from one agency or purpose to another. These transactions decrease and increase the amounts available for obligation in the particular appropriation accounts and are explained by applicable footnotes. The appropriations are classified to show the amounts appropriated from an organizational standpoint, and are shown in the second money column.

b. Contract authorities – Contract authorities represent a grant of authority by the Congress to incur obligations prior to the enactment of appropriations. Contract authority does not, in itself, permit the spending of money. It must be followed by an appropriation to permit payment of the obligations incurred thereunder. New contract authority granted during the fiscal year is shown in the second money column. Appropriations enacted for the fiscal year to liquidate such authority are included in this column as current year appropriations with a corresponding decrease to unfunded contract authority.

c. Authority to borrow from the Treasury and the Public – In some instances, the Congress grants authority to Government corporations or agencies to make outlays from funds to be borrowed from the Secretary of the Treasury or from the Public. In the case of borrowings from the Treasury, the Secretary is directed to use proceeds from the sale of public debt securities. Legislation is generally specific with respect to the amount of money that can be advanced by the Treasury to each corporation or agency and often requires that the borrowing transactions be accomplished by the issuance of formal notes of the agency. A few agencies of the Government are authorized by law to issue their own securities to the public. Before issuing these securities, the agencies are required to secure approval from, or consult with, the Secretary of the Treasury with respect to terms of the borrowing and timing thereof. Such borrowings and repayment of borrowings from the Treasury or the public represent financing transactions and, therefore, do not affect the budget surplus or deficit. (Note: The Federal Financing Bank, created by Public Law 93-

224, (87 Stat. 937), dated December 29, 1973, for the purpose of consolidating the market financing of other Federal agencies, such as the U.S. Postal Service, the Export-Import Bank of the United States, the Tennessee Valley Authority and others, similarly does not affect the budget surplus or deficit.) Increases and rescissions in borrowing authority during the fiscal year are shown in the second money column.

3. **Transfers, borrowings, and investments (net)**

a. Transfers of obligated balances from lapsed appropriations to merged prior-year accounts as required by 31 U.S.C. 1552, and other transfers by request of the administrative agencies concerned, as authorized by law, are shown in the third money column. The other transfers are, in the majority of cases, for the benefit of the advancing appropriation accounts, and outlays from such transfer appropriation accounts are associated with the account to which the funds were originally made available.

b. Other transactions shown in this column include the following:

(1) Borrowings – representing the net amount of actual borrowings made during the fiscal year.
(2) Investments – representing the net par value of purchases and sale of public debt and Government agency securities.
(3) Agent cashier – representing net cash advances to government cashiers.

4. **Outlays (net)** – The outlays shown in the fourth money column are reported generally on the basis of checks issued by Government disbursing officers net of collections. Certain modifications of this basis are described as follows:

a. Interest on public issues of the public debt is on an accrual basis; interest on special issues is on a cash basis.

b. Where payment is made in cash rather than by check, the cash payment is the outlay.

c. Certain outlays of an intragovernmental nature do not require the issuance of checks; for example, charges made against appropriations representing a part of employees' salaries which are withheld for individual income taxes and for savings bond allotments.

Outlays are stated net of collections representing reimbursements as authorized by law, refunds of money previously expended, and receipts of revolving and management funds. In this connection, public debt or agency securities which are acquired in lieu of other properties, or donated, are considered as "constructive" receipt of cash and, therefore, the par amounts of such securities are included as receipts (reductions of outlays) of the acquiring agency.

5. **Balances withdrawn and other transactions** – The fifth money column includes net transactions for several types of activities as follows:

a. Unobligated balances withdrawn – Represents reductions of appropriations pursuant to 31 U.S.C. 1552 which provides that "Upon the expiration of the period of availability for obligation, the unobligated balance shall be withdrawn and, if the appropriation was derived in whole or in part from the general fund, shall revert to such fund, but if the appropriation was derived solely from a special or trust fund, shall revert, unless otherwise provided by law, to the fund from which derived."

b. Unexpended balances withdrawn – Represents reductions of appropriations pursuant to 2 U.S.C. 102a which provides that the unexpended balances of appropriations which are subject to disbursement by the Secretary of the Senate or the Clerk of the House of Representatives shall be withdrawn as of September 30, of the second fiscal year following the year for which provided.

c. Transfer to surplus fund of the Treasury – Transfers of unexpended balances of appropriations to what is termed in the law the "Surplus Fund of the Treasury" represents withdrawals of funds from such appropriations on the books without affecting the cash in the Treasury. The term "Surplus Fund of the Treasury," as used by the Congress in the Act of March 3, 1875 (1 Stat. 437) and in certain other acts, and by the Treasury Department, does not represent a fund consisting of unappropriated surplus or other assets as the term would ordinarily imply in accounting terminology; nor does it have any relation to surplus income. It is merely an expression of the action to give effect to an act of the Congress to withdraw or write off balances of certain appropriations. The net effect is to reduce the amount of the unexpended appropriation and thereby reduce the agency's authorization to obligate or spend. In certain cases moneys withdrawn to the surplus fund are earmarked available for reappropriation. The amount of appropriations so withdrawn are explained by appropriate footnotes.

d. Restorations to the appropriation accounts – Represents the re-establishment of balances pursuant to 31 U.S.C. 1552 which provides, "That when it is determined necessary by the head of the agency concerned that a portion of the unobligated balance withdrawn is required to liquidate obligations and effect adjustments, such portion of the unobligated balance may be restored to the appropriate accounts."

e. Capital transfers – Represents nonexpenditure transfers from revolving funds on account of repayment of investment or distribution of earnings.

f. Adjustments to borrowing authority – Represents a reduction in borrowing authority when fund resources other than borrowings were used or are available to liquidate or cover unpaid obligations.

g. Changes in receivables, payables, undelivered orders, unfilled customer orders, and unobligated balances.

6. **Balances end of fiscal year** – These year-end balances represent the column 1 (opening) balances as adjusted by the transactions in columns 2, 3, 4 and 5. As such, these figures become the opening balances for the succeeding fiscal period unless otherwise footnoted (i.e., September 30, 1985 closing balances will be the corresponding opening balances for fiscal year 1986). The closing balances of accounts with borrowing authority represent either (1) definite borrowing authority) – unused borrowing authority at the close of the fiscal year or (2) indefinite borrowing authority – the amount equal to those unpaid obligations covered by borrowing authority at the close of the fiscal year. The unobligated balances of annual and merged prior-year accounts normally represent an excess of receivables over gross unpaid obligations. Such excess amounts are footnoted "excess of receivables over gross unpaid obligations," similarly, over-obligations are also footnoted.

Off-Budget Federal Entities – Presented as a separate unit of Part Three, are the Off-Budget Federal Entities. These entities would normally fall within the budget, however, certain provisions of law or administrative determinations have required that transactions of such entities or selected programs should not affect budget results. The present off-budget entities are: the Rural Electrification Administration (salaries and expenses will continue to be reflected in budget totals), including the Rural Telephone Bank, which was classified outside the budget, pursuant to Public Law 93-32, dated May 11, 1973; the United States Postal Service, which was classified outside the budget, pursuant to the Postal Reorganization Act (Public Law 91-375), dated August 12, 1970 (Payments to the Postal Service fund financed by general fund appropriations will continue to be reflected in budget totals); the Federal Financing Bank, which was created by the Federal Financing Bank Act of 1973 (Public Law 93-224) dated December 29, 1973; and the United States Synthetic Fuels Corporation, which was created by the Energy Security Act (Public Law 96-294) dated June 30, 1980; the U.S. Railway Association, created by the Regional Rail Reorganization Act (Public Law 93-236) dated January 2, 1974; and the Petroleum Acquisition and Transportation, Strategic Petroleum Reserve, which was created by the Omnibus Budget Reconciliation Act of 1981 (Public Law 97-35) dated August 13, 1981.

FOOTNOTES

Note: Figures are rounded and will not necessarily add to totals. The amounts shown in this table are not comparable with the Budget classification shown in Table A, Receipts by Source Category, and the Monthly Treasury Statement Receipts and Outlays of the United States Government. State and district data for 1985 are not directly comparable with years prior to 1981. For the most part, beginning with 1981, amounts are classified by state and district based on where taxpayers reside rather than, as for 1980 and prior, where taxpayers make payments.

1 Amounts shown for each particular state as internal revenue receipts should not be interpreted as the actual tax burden of the residents of such states. Adjustments have not been made for cases where an individual resides in one state and derives his income from another. Also, the taxes of some corporations are paid from a principal office, although their manufacturing or service operation may be located in another state, or throughout several states.

2 Collections of individual income tax not withheld are inclusive of old-age survivors, disability and hospital insurance taxes on self-employment income (SECA). Similarly, the collections of income tax withheld are reported in combined amount with old-age, survivors, disability and hospital insurance taxes (FICA) on salaries and wages. Estimated separate national totals for individual income tax and for old-age, survivors, disability and hospital insurance taxes are shown in the Monthly Treasury Statement of Receipts and Outlays of the U.S. Government. Amounts of old-age, survivor, disability and hospital insurance tax collections, classified by states are compiled by the Social Security Administration as a by-product of its wage and income record-keeping operations and are published periodically in the Social Security Bulletin.

3 Includes railroad reemployment compensation tax and tax on railroad employee representatives.

4 Includes tax on unrelated business income of exempt organizations.

5 The Reno district office headquarters was relocated to Las Vegas, Nevada, effective March 4, 1985.

6 Tax payments made to banks, under the Federal tax deposit system, are included in the internal revenue collections for the period in which the Federal tax deposit is purchased. However, such payments are not classified by internal revenue districts (nor by tax subclasses to which excise taxes relate) until they are applied to tax liabilities in the internal revenue offices. Accordingly, the items shown as "Undistributed Federal tax deposits" represent the amount of Federal tax deposits forms purchased but not yet applied to taxpayer's liabilities.

7 Represents Internal Revenue Service transfer during fiscal year 1985 of $1.00 and $2.00 designations from the Individual Income-Withholding Receipt Account 20-0101 to account 20-5081 for the following amounts:

Designation	Number Designated	Amount
$ 1.00	10,931,338	$ 10,931,338
2.00	11,840,164	23,679,673
FY 1984 Adjustment in FY 1985		176,744
Total	22,771,502	$ 34,787,756

8 Includes amounts contained in the national totals but not classified by state or district as of September 30, 1985. Also includes $63,075.12 excise taxes transferred to special account for the Northern Mariana Islands and adjustments made by the Department of the Treasury to individual income tax withheld and FICA.
